Savage 8 HQ Quick Start

A companion to the working Life, Content and Money workspace

Savage 8 HQ gives you Life, Content, Money and Ideas boards with a weekly planner. It is an organizational workspace. It does not create your storefront, generate income, connect social accounts or automatically apply for jobs.

The current browser preview is free. Paid membership, subscription checkout and access controls are not included in this companion. Do not interpret a proposed price as an active subscription.

Start at https://melssavagesoul.com/hq/. Use one device and one test entry before adding your whole plan.

Add an action with a finish line

Choose Life, Content, Money or Ideas. Write a short title and a next-action detail. Add a date when the action truly needs one. Use the status to distinguish work started from work completed.

Example: title "Guide listing"; detail "check the preview and write the delivery instructions"; target Friday; status To do. When the instructions exist and have been reviewed, mark Done.

Put sensitive personal or financial records somewhere appropriate, not in these general planning fields.
