Savage Life, Content & Money Planner

Undated pages for the next move you can actually finish

This undated printable planner organizes commitments, content and income activity. Print the pages you need and repeat them weekly. It is a planning tool, not a financial forecast or a promise of productivity.

Pick one life task, one content task and one money task. Each needs a next action and a finish line. "Make money" is a goal. "Send the agreed quote to the interested customer" is an action.

Record income promised separately from payment received. Keep sensitive account details out of the planner. The website workspace is a separate browser tool; this PDF does not sync to it.

Write your available hours after fixed commitments. Leave room for sleep, breaks, family, meals and unexpected work. Fit tasks into the remaining time. If the list does not fit, reduce it.

Write a finish line for each block. Choose what can wait. A realistic plan is more useful than a full page of commitments you cannot keep.
